

# SURAJ KAMBLE

## Full Stack Developer (Java & MERN)

Phone: +91 9637362158 | Email: kamblesurajbalaji@gmail.com

LinkedIn: [linkedin.com/in/suraj-kamble121/](https://www.linkedin.com/in/suraj-kamble121/) | GitHub: [github.com/surajkamble1234](https://github.com/surajkamble1234)

### PROFESSIONAL SUMMARY

Computer Engineering graduate skilled in building end-to-end web applications with Java, Node.js, React.js, and MySQL. Hands-on experience developing REST APIs, responsive user interfaces, and structured databases through software internships. Strong foundation in Object-Oriented Programming (OOP) and modern full-stack workflows. Eager to contribute as a Full Stack Developer to build dependable software solutions.

### SKILLS

**Languages:** Core Java (OOP, Collections, Multi threading, Exception Handling) JavaScript (ES6+), SQL

**Frontend:** React.js, HTML5, CSS3, Bootstrap, JavaScript, Responsive Web Design, DOM Manipulation

**Backend:** Node.js, Express.js, RESTful API Development, Middleware Integration

**Databases:** MySQL (Schema Design, Complex Queries, Joins), MongoDB (Basics)

**Developer Tools:** Git, GitHub, Postman API Testing, VS Code, Eclipse IDE

### EXPERIENCE / INTERNSHIP

#### Junior Software Developer Intern | Creazione Software (Jul 2025 – Jan 2026)

- Built modular React.js interface components, improving display speeds and page state handling
- Developed and connected 8+ backend REST APIs using Node.js and Express.js with MySQL data storage.
- Checked API payload formats, errors, and status codes using Postman before deployment.

#### Java Full Stack Development Trainee | Giri's Tech Hub (Aug 2024 – Apr 2025)

- Built end-to-end full stack web applications integrating React.js frontends with Java-backed data layers.
- Applied object-oriented programming (OOP) principles, design patterns, and SQL optimization techniques.

#### Web Development Intern | Tech Place Solution (Jan 2023 – Mar 2023)

- Designed mobile-friendly landing pages that work across all modern web browsers
- Handled table records and run fetch queries in MySQL to ensure correct data storage

#### Java Development Intern | N-Infinity Computer Institute (Nov 2021 – Jan 2022)

- Programmed Core Java applications focusing on Collections, file handling, and structured exception handling.

### PROJECTS

#### Movie Recommendation Web Application | React.js, Node.js, Express.js, MySQL, Bootstrap | [GitHub](#)

- Built a web platform that suggests film titles based on selected categories
- Set up relational tables and search routes to process user requests quickly
- Designed a responsive front-end interface using Bootstrap grid systems for optimal viewing across all screen sizes.

#### CRUD Record Management System | React.js, Express.js, Node.js, Bootstrap, MySQL | [GitHub](#)

- Created a full-stack CRUD application allowing users to create, read, update, and delete real-time database records.
- Implemented client-side and server-side form validations to ensure data integrity before database commits.

#### Personal Developer Portfolio | HTML5, CSS3, JavaScript, Responsive Design | [LiveDemo](#)

- Designed a personal portfolio website with modular sections to showcase projects, technical skills, and contact links.
- Optimized assets and semantic HTML structure to ensure high performance and mobile compatibility.

### EDUCATION

**B.E. in Computer Engineering** | Savitribai Phule Pune University (2020 – 2024) | CGPA : 7.96

**HSC(Science)** | Maharashtra State Board (2018 – 2020) | 75%

**SSC** | Maharashtra State Board (2017 – 2018) | 80%
